

We dedicate to make things possible

Global Architecture Ltd. provides excellent recreation facilities, enriching and enhancing the environment. We are selling play equipment, safety surface, protective padding, and safety checking & maintenance service. Our customers included government departments, developer, architects, schools, shopping malls and other individual client.

We are confident that we can provide your customized project requirements with limited budget. We do our best to fulfill clients' prospect. We have an experienced team to provide all-in-one solutions including packing design, construction, and maintenance for our customers.

'Play-safe' is our mission; it is our No.1 issue for our kid's projects. Recreation facilities in the parks can inspire children development, it is necessary for every child to play with their parents in their childhood. Our company supplies different countries' recreation facilities with Europe and USA safety standard; to build the outstanding playground providing a pleasure childhood for all kids and parents.
